Old Sampler is Sold to Arthur Lower Mammoth the Strong Feature J. Cushing.

TERMS ARE KEPT SECRE

SLATED AS \$1 "AND OTHER CON-

ownership of it and will operate it in future. The parties interested decline to give any details regarding the trans

The deed simply states that for \$1 "and other considerations" the plant is transferred from the Richard Mackintosh estate to Mr. Cushing. Charles Read, executor of the estate, said last night that the sale had been made, but he absolutely declined to give any of the particulars. He said that Mr. Cushing was the principal party in interest and it would not be proper for any one else to discuss the deal.

The Ploneer was the first or among the first of the samplers erected in Utah. It was built by the late Richard Mackintosh and operated by him up to the time of his death last spring. For years it did the cream of the sampling business, but lately it had not been working to as large an extent as at first.

as at first.

It is reported that Mr. Cushing will put in some more modern machiner and work the sampler up to its forme high standard. He is thoroughly familiar with the business and is competent to establish and maintain a high tendard. standard for his plant.

HIGHLAND BOY SMELTER.

Trial Run of Improvements Come Off Shortly.

The trial run of the additions at th Highland Boy smelter will be mad one day this week or on Monday

one day this week or on Monday at the latest. It is hoped and expected by the management that everything will move in a satisfactory manner as the greatest care has been exercised in putting in the improvements.

G. K. Fischer, engineer for the company, arrived yester 2y from a trip to San Pedros, N. M. There he was present at the blowing in of a 200-ton smelter ward by the Santa Fe Copper company and built under Mr. Fischer's supervision. The plant started off in first-class style and no troubie with its operation is expected.

first-class style and no trouble with its operation is expected.

Mr. Fischer has also been in charge of the Highland Boy work. Practically the plant has seen doubled. It has taken considerable time to complete the work, but everything is now in readiness for the testing of the reverberatory furnaces and the roasting furnaces. There are three of the reverberators and eight roasters.

As re-enforced the smelter will have a capacity of 500 tons per day, and the finished plant will be one of the largest, as well as one of the most complete in the west. Unless all signs fall the production of copper from the Highland Boy will be more than doubled during 1901. The total output for 1900 will be in the neighborhood of 5,500,000 pounds.

1900 will be in the heighborhood of 3,500,000 pounds.

Some changes, too, have recently been made at the mine. A new building has been put up at the mouth of tunnel No. 7. In it is placed a fifteen-drill compressor. The ore will be dropped to No. 7 and taken to the railroad over the transay. Some 500 tons can easily the tramway. Some 500 tons can easily be handled in this way daily.

MINES OF UINTAH.

Assessment Work Being Done on Prospects.

Vernal, Dec. 24.-Ed Whipple return ed yesterday from a trip to Douglas his assessment on his mining claims in the Bromide district. He found things very quiet on that end of the range, the Bromide aine and smelter having closed down until spring.

range, the Bromine Line and sheeter having closed down until spring.

The East Lynne, a property in which Mr. Whipple is interested, he states is showing up splendidly with development and gives promise of being one of the best claims in the district.

In the Jennie McNeill tunnel, the property of T. C. McNeill and others, large boulders of copper are showing in the face of the drift, some of them as large as a common stove and carrying splendid values in the red metal.

Considerable prospect work has been done on this claim, with a view of locating the ore chute, which indications demonstrate exists in the neur vicinity. The present development looks very

The present development looks very encouraging for the locators of the ore body, and the owners are feeling ju-

Mountain district yesterday, where he has been doing some development work on the Fifteen Cent claim, which he states is showing up remarkably well

M. B. Pope came down from the M. B. Pope came down from the Dyer mine this afternoon and brings the report that the smelter, which has made a very successful run of fifteen days, will be blown out tomorrow night. A magnificent stack of bullion is piled up ready for shipment, which will be transported to the railroad during the winter.

ing the winter.

The smelter will not make another run this winter, but matters will be gotten into shape for a good start in

Dewey Company Incorporated.

Dewey Company Incorporated.

With a capital of \$30,000, in 10-cent shares, the Dewey Consolidated Copper & Gold Mining company was incorporated in this city yesterday to develop the Dewey group of five mining claims, situated in West Mountain district. Sig Simon is president; Elizabeth V. Fritz, vice president; Elizabeth V. Fritz, vice president; Eva M. Branting, secretary; John Halverson, treasurer. A. L. Morris, manager, and J. E. Wilson and M. N. Buck are the other directors. A deed was filed for record with the county recorder at the same time yesterday, conveying five claims from M. N. Buck to the company for a stated consideration of \$2,500.

Incorporation Articles Changed. The Homestake Mining company of Utah, whose property is located in old Blue Ledge district, has amended its articles of incorporation by reducing the capital stock from \$500,000, in \$1

An amendment to the articles of incorporation of the La Reine Mining company, recently adopted, was filed with the county clerk yesterday, authorizing an increase of \$50,000 to the capital stock, making it \$300,000, in \$1 shares, instead of \$250,000.

Ore and Bullion.

Ore and bullion settlements in the city yesterday amounted to \$42,300, divided as follows: R. Jones.-Ores, \$17,500; bullion,

McCornick & Co.—Mingo bullion, \$3,-100; ores, \$3,200; cyanides, \$6,300. Commercial National Bank.—Ores,

MINING STOCK MARKET.

of Yesterday's Sales. Aside from the business done in Lower Mammoth trading on 'change yesterday was well nigh featureless. Shares in the company named advanced something like cents a share on the average, as compared with Wednesday, and 16,000 shares

SIDERATIONS."

were sold.

Ingot was quite lively and sold up to 5½ cents. Star Consolidated sold from 80 cents at the start down to 78½c. Mammoth sold 109 at 32 22½ and 4½ cents was demanded for May Day. Johnny was sought at 60 cents again, but no offers sought at 60 cents again, but no offers sought at 81 cents, and 150 Silver Shield brought 26½ cents. The trading of the session ended with the transfer of 500 shares of Yankee Conson dated at 9½ cents.

Mining Notes.

James Long, jr., expects to return to Gold Mountain today.

The Centennial-Eureka marketed twelve cars of copper ore yesterday

Two cars of ore from the Erie, one from the R. G. W., one from the May Day, were received at the Taylor & Brunton sampler yesterday. At the Daly offices yesterday it was

stated that ore of very satisfactory value is being extracted from that mine. It is expected that within a short time ough will be on hand to furnish a At the Horn Silver office in the Tem-pleton block it was said yesterday af-ternoon that no word had been re-ceived from the east regarding the div-

which it is thought will soon be Manager W. G. Filer of the Annie Laurie goes back to Gold Mountain today. President Huck and R. L. Kim-

berley are expected on the ground shortly to witness the starting of the new mill. Revenal McBeth, senator-elect of

Custer, Ida., was in town yesterday.
Mr. McBeth is secretary of the Lucky
Boy Mining company of Custer. He
thinks the Gem state has a great future before it in a mining way.

Manager T. R. Jones said yesterday that the Mingo smelter at Sandy, which was shut down Wednesday, would start work again about the 1st of February. He did not care to discuss the reasons for closing at this time, but gave the assurance that the suspension is only

David Keith said yesterday that the proposed consolidation of the Supher proposed consolidation of the Sunbeam and El Rey properties would be an assured fact within the next chirty days. Mr. Keith added that the terms of the combination had been agreed on but he was not ready to make the de

articles of incorporation by reducing the capital stock from \$500,006, in \$1 shares, to \$10,000 in 10-cent shares, and providing for the annual election of officers on the first Monday in August of cach year at the company's principal office, which has been changed from Salt Lake to Park City.

An amendment to the articles of incorporation of the La Reine Mining ground that had never before been experienced. pround that had hever before been ex-plored. The new mill will be started in January. It is equipped with a drier to handle the crushed ore and the outlook for the company appears to be bright.

URGES TAXON STOCK AND BONDS

DR. F. C. HOWE DISCUSSES AS

SESSIENT OF CORPORATIONS.

American Economic Association Believe in Depth of the City of the Section of the City of the Secti

"One of the chief advantages of this tax lies in the fact that it has been approved by the United States courts. Moreover, it treats the corporations as an entity, a unit, and values it as such. Further than thi, it adopts the valuation of the commercial world as evidence of the price for which stocks and bonds have sold, and values the corporation by adding to the market value of the stock of the company the par value of the bonds. In some states this method is employed as to ail corporations.

"Under the Ford franchise tax law,"

have been granted some minor concessions."
